

Card Kingdom MTG Buying Research

PDF export of the workbook tables. Product prices and availability are copied from the existing spreadsheet and may change on Card Kingdom.

Important caveat	I included rows I could verify from Card Kingdom pages/search results without fabricating prices or availability. Card Kingdom pages/prices change constantly.
Secret Lair caveat	Card Kingdom showed 611 Secret Lair sealed results in the accessible listing, so the Secret Lair sheet contains the verified crossover/commander rows found in this pass, not a guaranteed exhaustive Secret Lair archive.
Commander deck caveat	Card Kingdom's broad 'commander' sealed search showed 230+ results and included booster boxes, bundles, and crossover products. The Commander sheet contains verified non-crossover commander decks found in this pass, not a guaranteed every-single-precon inventory crawl.
Pack count caveat	I did not add booster-box pack counts unless they were clear from the available listing text, to avoid fabricating values.
