## Project Notes

The University of Chicago, via Mike Marcacci, need two landing pages developed within their existing development environment. Bumbli will provide the front end development of their Big Ideas Generator and Arete home pages using the provided designs and integrate their LocomotiveCMS back end.

## Terms & Conditions

We request 50% deposit 1 week after project estimate is sent in order to start the project. You can make a payment via credit card (a 3% processing fee will be added), PayPal, or a personal check to the address below. We'll begin working on your project once the deposit is received.
