nodejs\_db::Query::row\_t

```
graph BT; A[nodejs_db::Query::row_t] -.->|columnLengths| B[unsigned long *]; A -.->|columns| C[vector< std::string > *];
```

The diagram illustrates the structure of the `nodejs_db::Query::row_t` type. It is represented by a grey rectangular box at the bottom. Two dashed purple arrows originate from the top of this box. The left arrow, labeled `columnLengths`, points to a white rectangular box containing the text `unsigned long *`. The right arrow, labeled `columns`, points to another white rectangular box containing the text `vector< std::string > *`.
