

# Open Share Icon

## Overview:

The Open Share Icon is designed to help users easily identify shareable content, to generally represent the act of sharing, and to promote a consistent icon for sharing on the web.

Open Share Icon is freely available for use in connection with content sharing, in all its forms. Shareable content may include blog posts, articles, photos, videos, etc.

## Design Notes:

The Open Share icon conveys the act of sharing by visually representing one hand passing an object to another hand, as in "pass it on" or "sharing". The icon also represents an "eye", as in "look at this".
