A tax credit is allowed to an eligible small business certified as a microbusiness by the North Dakota Commerce Department's Division of Economic Development and Finance (EDF). The credit is equal to 20% of the total of qualifying new investment and qualifying new employment.

Line 10 - Research expense credit

If you incurred qualified expenses for qualified research in North Dakota, you may be eligible for a tax credit. The credit is allowed on the excess of "qualified research expenses" over a "base amount." These terms have the same meaning as those defined under Internal Revenue Code § 41, but only to the extent the expenses were incurred within North Dakota. The tax credit is equal to a percentage of the excess of North Dakota qualified research expenses incurred during the tax year over the North Dakota base amount for the tax year. On the first \$100,000 of excess

North Dakota qualified research expenses, the percentage is 25%. On excess North Dakota qualified research expenses over \$100,000 for the 2013 tax year, the percentage is:

- 20%, if you first started conducting qualified research in North Dakota in tax years 2007 through 2010, or
- 8%, if you first started conducting qualified research in North Dakota after the 2010 tax year.

Tax planning note: *If qualified research is conducted in North Dakota for the first time in tax years 2007 through 2010, the 20% credit percentage for excess North Dakota qualified research expenses over \$100,000 only applies for the 2007 through 2016 tax years; it changes to 8% for tax years after 2016. If qualified research is conducted in North Dakota for the first time after the 2010 tax year, the credit percentage for excess North Dakota qualified research expenses over \$100,000 is 8% for all tax years.*

If the total credit (including a credit from a North Dakota Schedule K-1) that is first allowed on the 2013 tax year's return exceeds the tax for the year, the unused credit may be carried back to the previous 3 tax years' returns and carried forward to the subsequent 15 tax years' returns. It must be carried back to the earliest tax year first, and then to each succeeding tax year until it is used up.

Election to sell, assign, or transfer unused credit. If you have an unused research credit and you obtain certification as a "qualified research and development company," you may elect to sell, assign, or transfer the unused credit to another taxpayer. For the conditions and procedures, including the reporting requirements, see N.D.C.C. § 57-38-30.5.
